

SQRisk Management Solutions

SQ Risk Management Solutions “SQ Risk” is a provider of competitive and customized risk management solutions and managed program services. SQ Risk Services are presented in three main categories: Managed Programs, Advisory Services, and Cybersecurity Services.

SQ Risk Managed Programs

SQ Risk’s approach scales risk management solutions to our customers’ business and compliance needs. SQ Risk “Managed Programs” are strategic partnerships that align your business resources with SQ Risk subject matter experts. With a Managed Program, SQ Risk takes a lead role in managing the program and associated activities alongside or on behalf of our customers.

SQ Risk Advisory Services

SQ Risk “Advisory Services” are unique engagements specific to the risk management needs of the customer. The Advisory Service engagement can act as a starting point for developing a new program, augmenting specific project subject matter expertise, or providing guidance to continue enhancing an existing program. Advisory Services are flexible engagements to meet a specific need.

SQ Risk Cybersecurity Services

The SQ Risk “Cybersecurity Services” rounds out the service offering by focusing on information security tailored to the needs of your company. There is no one-size-fits-all solution to meet the changing threat landscape and the unique exposures associated with your business. SQ Risk works with you to design the solutions that make sense to protect your business.

SQ Risk Social & Outreach

SQ Risk makes a concerted effort to contribute to the risk management community by sharing information and engaging in speaking opportunities to reinforce risk management practices.

SQ Risk is active in prominent social media platforms:

- LinkedIn: www.linkedin.com/company/sqrisk/
- Facebook: [/SQRisk](https://www.facebook.com/SQRisk)
- Twitter: [@SQRisk](https://twitter.com/SQRisk)

SQ Risk employees are likewise encouraged to participate in local trade associations and contribute to local chapters of security and risk management communities.

Strategic Partnerships

SQ Risk partners with industry-leading risk and security service/solution providers. These relations provide a conduit for our customers and in-house subject matter experts to explore a variety of solutions (e.g. GRC Tools, Threat Monitoring, Development, Hosting, SOC Services).

SQ Risk is a Member of the Shared Assessments Program and continues to provide thought leadership in the risk management and information security industries.
